

# RPR<sup>®</sup>

## Realtors Property Resource<sup>®</sup> announces an exciting update to RPR Mobile<sup>™</sup>

We have some great news about the RPR Mobile app, and a heads up on how members will update it.

**What:** This updated version of RPR Mobile will modernize the app and deliver new features:

- A refreshed interface, with familiar usability
- Buyer Tour enhancements
- Improved property search filters

**When:** On the morning of August 23rd, RPR Mobile will be updated on Google Play and the App Store.

**How it will work:** When the update goes live, members will need to upgrade before they can use the app. Once they've updated their app, they will log in using their RPR credentials. If they've previously set up fingerprint or face recognition, those options will still work. Once updated, the RPR app will feature a new app icon with a light blue

**Available To:** All REALTORS®, REALTOR-ASSOCIATES®, and Institute Affiliate Members

**Note:** As part of the new update, the RPR Mobile app will no longer function on tablet devices. Tablet users should begin using the RPR website, which includes a responsive design.

If additional support is required, contact RPR Member support at (877) 977-7576. For immediate questions regarding the Promotional and Educational Plan, please contact:
